General Instructions

Purpose of Form

Use Form 8396 to figure the mortgage interest credit for 2005 and any credit carryforward to 2006.

Who May Claim the Credit

You may claim the credit only if you were issued a qualified Mortgage Credit Certificate (MCC) by a state or local governmental unit or agency under a qualified mortgage credit certificate program.

Certificates issued by the Federal Housing Administration, Department of Veterans Affairs, and Farmers Home Administration, and Homestead Staff Exemption Certificates do not qualify for the credit.

The home to which the certificate relates must be your main home and also must be located in the jurisdiction of the governmental unit that issued the certificate.

If the interest on the mortgage was paid to a related person, you cannot claim the credit.

Refinanced Mortgage

You can refinance your mortgage without losing this credit if your existing MCC is reissued and the reissued certificate meets all of the following conditions.

- It must be issued to the holder(s) of the existing certificate for the same property.
- It must entirely replace the existing certificate. The holder cannot retain any portion of the outstanding balance of the existing certificate.
- The certified indebtedness on the reissued certificate cannot exceed the outstanding balance shown on the existing certificate.
- The credit rate of the reissued certificate cannot exceed the credit rate of the existing certificate.
- The reissued certificate cannot result in a larger amount on line 3 than would otherwise have been allowable under the existing certificate for any tax year.

For each tax year, you must determine the amount of credit that you would have been allowed using your original MCC. To do this, multiply the interest that was scheduled to be paid on your original mortgage by the certificate rate on your original MCC. The result may limit your line 3 credit allowed when you have a reissued MCC, even if your new loan has a lower interest rate.

If the certificate credit rates are different in the year you refinanced, attach a statement showing separate calculations for lines 1, 2, and 3 for the applicable parts of the year when the original MCC and the reissued MCC were in effect. Combine the amounts from both calculations for line 3. Enter that total on line 3 of the form and enter "see attached" on the dotted line next to line 2.

For more details, see Regulations section 1.25-3(p).

Recapture of Credit

If you buy a home using an MCC and sell it within 9 years, you may have to recapture (repay) some of the credit. See Pub. 523, *Selling Your Home*, and Form 8828, *Recapture of Federal Mortgage Subsidy*.

Additional Information

See Pub. 530, *Tax Information for First-Time Homeowners*, for more details.

Specific Instructions

Part I—Current Year Mortgage Interest Credit

Line 1

Enter the interest you paid during the year on the loan amount (certified indebtedness amount) shown on your MCC. In most cases, this will be the amount in box 1 on Form 1098, *Mortgage Interest Statement*, or on a similar statement you received from your mortgage holder. If the loan amount on your MCC is less than your total mortgage loan, you must allocate the interest to determine the part that relates to the loan covered by the MCC. See Pub. 530 for an example of how to allocate the interest.

Line 2

The certificate credit rate cannot be less than 10% or more than 50%.

Line 3

If you refinanced, see *Refinanced Mortgage* on this page.

If the certificate credit rate shown on line 2 is more than 20%, do not enter more than \$2,000 on line 3. If you and someone else (other than your spouse if filing jointly) held an interest in the home, the \$2,000 limit must be allocated to each owner in proportion to the interest held. See *Dividing the Credit* in Pub. 530 for an example of how to make the allocation.

Reduction of home mortgage interest deduction on Schedule A (Form 1040). If you itemize your

deductions on Schedule A, you must reduce the amount of home mortgage interest you would otherwise deduct on Schedule A by the amount on Form 8396, line 3, and report the reduced amount on Schedule A. You must do this even if part of the amount on line 3 is carried forward to 2006.

Part II—Mortgage Interest Credit Carryforward to 2006

If the amount on line 11 is less than the amount on line 7, you may have an unused credit to carry forward to the next 3 tax years or until used, whichever comes first. The current year credit is used first and then the prior year credits, beginning with the earliest prior year.

If you have any unused credit to carry forward to 2006, keep a copy of this form to figure your credit for 2006.

If you are subject to the \$2,000 credit limit because your certificate credit rate is more than 20%, no amount over the \$2,000 limit (or your prorated share of the \$2,000 if you must allocate the credit) may be carried forward for use in a later year.
